Let's Start!

Finding a place for the event.

Learning Outcome

Present advice on solving technical problems in a work context and appropriate for the interlocutor.

Can Do Statements

- I can describe general quantities.
- I can talk about hypothetical situations.
- I can talk about buildings and structures.

Ask your partner:

- What kinds of buildings do you have in your hometown/city?
- Which ones could be used to host an event?

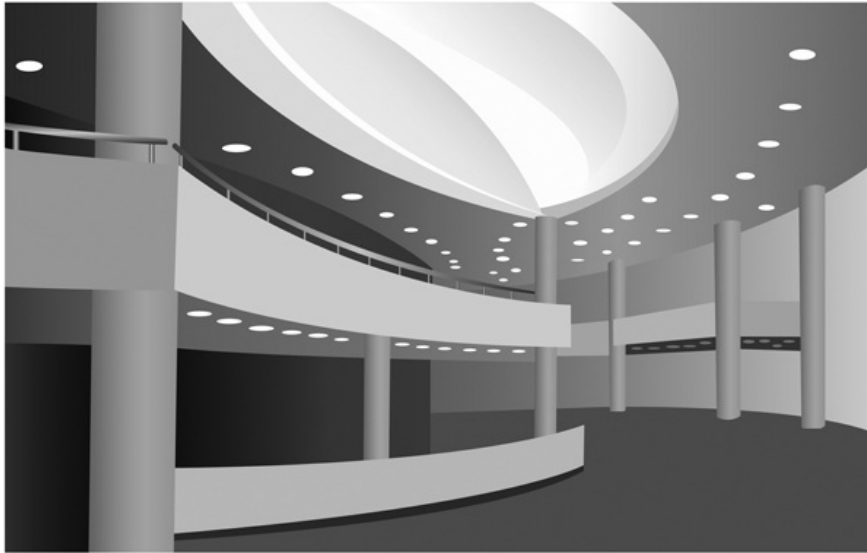

Let's Explore!

Miranda visits the facility and discusses **logistics***.

* "Logistics" refers to the arrangements necessary to organize an event successfully.

Instructions: Read the text aloud.

- Curator:** As you can see, this is a grand hall with a number of possibilities.
- Miranda:** Indeed. I love the old stone. It's wonderful how they've kept the building's character while modernizing it. Look at all the frescoes on the wall!
- Curator:** Those were painted using the method of the late Renaissance.
- Miranda:** The glass ceiling over the dome is wonderful. It could be a cathedral!
- Curator:** The lofty space makes for wonderful concert acoustics.
- Miranda:** If we had a much smaller room, it would be perfect. What are the dimensions of the open area?
- Curator:** It's 150 by 130 meters. Of course it's hard to visualize while empty. The band could be positioned down there if you liked. We have a full-sized stage.
- Miranda:** I also need plenty of space for the reception. If there was a bit more space down the center for the catwalk, attendees could almost feel a part of the show.
- Curator:** If we had a t-shape, that would be ideal. People would be able to see well if you had a raised platform, just a little lower than the band, running the length of the stage.
- Miranda:** Are there *any* changing rooms?
- Curator:** There are lots of public restrooms which are rather small. However, there is enough space near the stage. It could be set up for the models to change. They would have privacy if you put up a few partitions.

Let's Practice!

This place would be perfect if* we had more room.

*"if": is a word commonly used when you are describing a hypothetical situation.

Instructions: Read the halves a - d. Match them with the corresponding halves 1 - 4.

- | | |
|---|----------------------------------|
| 1. If we had a much smaller room, _____ | a. they would have privacy. |
| 2. The band could be positioned there ... _____ | b. it would be perfect. |
| 3. If you put up a few partitions, _____ | c. if you had a raised platform. |
| 4. People would be able to see well ... _____ | d. if you liked. |

Let's Practice!

We need to have plenty of* space for this event.

*"plenty of": is a quantifier and is used to indicate the amount of something. It generally comes before a noun.

Instructions: Select the correct quantifier from the list and write it in the corresponding space to complete each sentence.

- | | |
|---|---|
| 1. This is a grand hall with _____ possibilities. | (number / number of / a number of / numbers of) |
| 2. We also need _____ space for the reception. | (a plenty of / plenty of / plenty / a plenty) |
| 3. There is _____ space near the stage. | (enough not / enough / enough of / an nought) |
| 4. Are there _____ change rooms? | (any / any of / an / an any of) |
| 5. There are _____ restrooms in this venue. | (lot of / a lot / lots of / lots) |
| 6. We need to put up _____ partitions. | (a few of / a few / few of / a phew) |

Extension Activity

Renting a venue for the event!

Instructions: Complete the following steps. Fill in the Self-Assessment.

- You are going to choose a venue for a work event.
- Go online and research different places/buildings that you could use to host the event.
- Describe the place and use quantifiers. (*There's enough room for 200 people.*)
- Talk about the negative aspects of each place, and imagine what could be different. (*If we had more space here, we could have a DJ.*)
- Read your description to a friend.

Self-Assessment

Yes No

I research buildings.

☐ ☐

I use quantifiers and vocabulary to describe buildings.

☐ ☐

I talk about hypothetical conditions.

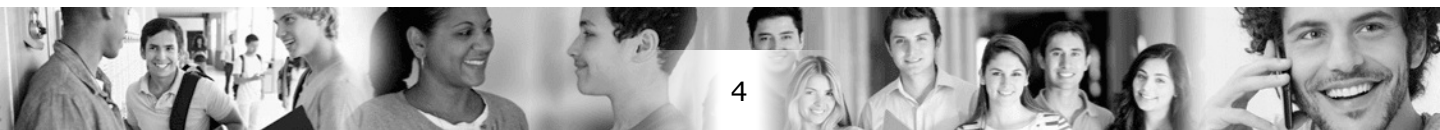

☐ ☐

I share my description.

☐ ☐

Target Words

- **character** (noun): qualities that make something different from anything else
e.g. This building has a lot of character.
- **to modernize** (verb): to make something more modern
e.g. They've modernized the building.
- **fresco** (noun): a picture made by painting on a wall or ceiling
e.g. Look at all those frescoes on the wall!
- **Renaissance** (noun): the period in Europe between 14th and 16th century which produced new art, literature, architecture, etc.
e.g. That was painted using the method of the late Renaissance.
- **acoustics** (noun): the way that sound is heard in a room
e.g. This space makes for wonderful concert acoustics.
- **lofty** (adjective): high or very tall
e.g. This is a lofty space.
- **dimension** (noun): length, width, height
e.g. What are the dimensions of the open area?
- **catwalk** (noun): an area at a fashion show where models walk along
e.g. We need more space for the catwalk here so you can feel part of the show.
- **privacy** (noun): being protected from being observed or disturbed by other people
e.g. They would have privacy if we put up a few partitions.
- **partition** (noun): a wall or screen used to separate one area from another in a room
e.g. We should put up a few partitions in this room.

Learning Points

Second Conditional

You use the second conditional to talk about imaginary or unreal situations in the present or future.

A. Forming the Second Conditional

If + past tense	would + verb
If we had a smaller room,	it would be better.

You can put either the result or the condition first.

would + infinitive	If + past tense
We would have more privacy	if we had some partitions here.

B. Using the Second Conditional to refer to hypothetical situations.

We use the second conditional when we are thinking about the present and imagining how it could be different given the condition.

Examples:

- *People would be able to see better if we had a platform here. (We don't have a platform and people can't see.)*
- *If we put up partitions, people would have more privacy.*
- *It would be ideal if we had a t-shape room.*

Learning Points

Quantifiers

Quantifiers are words or phrases used to indicate the amount of, or quantity of something.

They come before the nouns they are modifying.

Example: *We need **a bit** more space here for the catwalk.*

With Uncountable Nouns	With Countable Nouns	With Both
• much • enough • a bit (of)	• a number of • many	• plenty of • any • lots (of) • enough

Examples:

- *There are **lots of** restrooms in this venue.*
- *We need **plenty of** space because of the reception.*
- *This room has **a number of** different possibilities for the event.*
- *We have a **much** smaller room.*
- *We need to put up **a few** partitions.*
